Mustapha Amarigh

Experienced HRIS Consultant

Objective: Senior HRIS Consultant / HRIS Project Manager

HRIS consultant with over 3 years of experience deploying HR and document management solutions (AgiRH, Talentsoft, HRMAPS, M-Files), now moving into project leadership. I run HRIS projects end to end: scoping and requirements gathering, specifications, configuration, data integration, go-live and change management. I combine HR functional knowledge with technical skills (SQL, REST APIs, Power BI), backed by a Master's degree in Big Data & Analytics.

PROFESSIONAL EXPERIENCE

Experienced HRIS Consultant
Nov 2024 – Present
AgiRH · Casablanca

- Lead AgiRH deployment projects for clients across various industries, from scoping and requirements gathering through go-live.
- Run discussions with client HR teams and translate their needs into functional specifications.
- Configure modules: core HR administration, performance reviews, workforce planning (GPEC), training, recruitment, absences, HR requests and employee portal.
- Build HR dashboards in SSRS (Report Builder) to track key performance indicators.
- Drive change management: train key users and write functional guides to support adoption.

HRIS & Document Management Consultant
Jun 2023 – Oct 2024
Kertys · Casablanca

- Implemented Talentsoft, HRMAPS and M-Files (DMS) for clients across industries, tailoring each solution to their HR processes.
- Configured solutions to meet the requirements and objectives agreed with clients.
- Integrated the HRIS with the Rekrute.ma job board via REST APIs to import applications automatically.
- Built Power BI and Excel dashboards tracking time to hire, headcount by entity, internal and external mobility, attrition and training.
- Trained users and wrote functional guides.

Environment: Talentsoft, HRMAPS, M-Files, SQL Server, REST APIs, C# / .NET, Power BI, Excel
